ITEMS TO BE ADDRESSED 12-13-14

NSS:

1. Tire Rule: Take from 18.4.38 to any tire size. Weight take from 6500# to a lighter weight. Mike Turner

Super Stock

1. Allow any Production Head, including spread port with a cast aluminum intake. Must be less than 5" bore space. This rule is goood for any manufacturer out there; Ford, Doge, Chevy or any new ones that want to pull. David Affeldt

466 Hot Farm

1. Intake crossover pipe can't exceed 3.5" outside diameter. It can't have any cooling tin tube as part of it. Tom Yost.
2. Pump test rule. Testing water injection. RPM box (down load each run after each pull) Josh Hayes

Pro Farm

1. I would like to run the weights the way we did for 2014----10,000 cooler and cast tires; 11,000 no cooler and no cut tires; 10,500 either cooler or cut tires. Ken Mike
2. Drop (no big foot) part of the turbo rule, most guys are running the HX60 with the cooler and it just costs more to make it into a small foot. Ken Mike

Super Farm

1. Remove weight difference since everyone will now have slotted turbo chargers. 9300 lbs across. Andy Keyes

Open Stock

1. Allow after-market blocks. Dan Thoma
